INNOVATIVE IDEAS

PROBLEM : Outreach of Education to Every Children irrespective of Development in their City/Area.

OUR IDEAS:

- CINEMA HALL'S with Computer Learning Facilities.
- Learning Centre's as Self Training centre.
- Event Notifications through Mobile phone interface
- Appointing University Students as MENTOR for Student group.
- Assement of students on basis of their interest and building syllabus based on that also creating a feed with videos from various education sites according to that syllabus.
- Child can write his querry to central agencies which will try to reply ASAP.
- Local News Channels are requested for Lesson's / study material (DTH services)
- MOBILE LEARNING CENTRE (VEHICLE BASED LEARNING APPROACH)
- **"EDUTOONS"** A comic to interact with students in creative, interesting manner which help to develop their idea/concept.
