Current Scenario:

- There is a woman suffering from cancer and her insurer has denied reimbursement for part of it.

- We create a web app/mobile app/customer support through voice/video conference, in person.
- Patient writes
  - Brief medical condition, prescribed treatment, and
  - actual cost estimates
  - Insurance payout gap
- Doctor, insurer, hospital authenticate summary
- With a banking partner, generate a unique account
  - Share a/c with family & friends for anonymous donations
  - Facilitate a group soft loan
  - Release some funds for immediate procedures
- Anonymously participate in cancer support group
  - Be educated and share experience, to educate
